<b>Route Design</b>		1 of 1
<b>Transportation - General</b>		Date Feb 7 <sup>th</sup> , 2012 Revised
<b>Policy</b>	The East of Thunder Bay Transportation Consortium shall design all routes with the student and public safety as its main focus	
<b>Operational Procedure</b>	<p>All routes will be designated to operate only on publicly owned roads and roads which are publicly maintained twelve months of the year. The exception being turnarounds which may be located on private property where approved by the Transportation Coordinator. Students may be required to transfer between buses at designated locations.</p> <p>While student and public safety is the priority of all route design, other criteria may include; site conditions, consideration of fiscal responsibility, budgetary limitations, length of time students spend riding on the bus and any other criteria the East of Thunder Bay Transportation wishes to apply.</p> <p>Route changes or modifications (including scheduling) may be made at any time, provided they are consistent with the Transportation Policies, as determined by the Transportation Coordinator. However, it is the intent that routes be designed, implemented, and fixed by September 30 annually, for the remainder of that school year. Any requested changes to routes beyond that date must be made in writing and will be considered by the Transportation Coordinator.</p>
