## Policy M04 106

<b>Section Requirement to Ride Regularly</b>		Page 1 of 1
<b>Transportation - Eligibility</b>		Date March 2022
<b>Policy M04-106</b>	<p>The transportation system is continually reviewed to ensure that the appropriate number of school buses and capacity meets the needs of eligible students. The system is designed with the intent that those registered are riding regularly and it is the primary transportation for the student(s). Students are not permitted to use school bus transportation on an as needed basis.</p>	
<b>Operational Procedure</b>	<p>In order to maintain a seat on the school bus, students must use the service as their primary mode of transportation.</p> <p>Students assigned transportation and reported as not riding for 20 or more consecutive school days will be removed from transportation upon notification to parent/guardian.</p> <p>This is due to the disruption to route timing which impacts other families and schools as well as in the interest of fiscal responsibility.</p> <p>Exceptions will be made in shared family situations.</p> <p>Frequency will be monitored via regular communication with the bus operators as well as through route audits.</p> <p>Parents/guardians will be notified via the school. At any time, service may be re-instated should regular service be required.</p>
